

REIMBURSEMENT APPEALS & LITIGATION SERVICES

Hall Render's Reimbursement Appeals and Litigation attorneys have extensive knowledge of all commercial and government health care reimbursement programs and their complex administrative processes. This experience allows us to assist with any type of Medicare/Medicaid reimbursement issues, compliance, audits, appeals and litigation as well as consult with clients on maximizing reimbursement and related proactive reimbursement strategies.

Our team is uniquely positioned to handle all our clients' reimbursement needs, questions, appeals and litigation because of our depth and breadth of expertise in health care reimbursement matters. Hall Render's Reimbursement Appeals and Litigation attorneys assist clients with:

- Provider Reimbursement Review Board appeals;
- Other Medicare and Medicaid administrative appeals, including OMHA and Medicaid RAC
- Litigation at all levels of federal and state court;
- Advocacy efforts with federal and state legislatures and administrative agencies; and
- Strategies to maximize reimbursement and counseling on any issues or concerns that impact reimbursement.

THE HALL RENDER ADVANTAGE

Hall Render represents hospitals on all appeal issues impacting reimbursement, including Medicare DSH, Uncompensated Care, Inpatient PPS, Wage Index, Graduate Medical Education, Bad Debt and many other issues. We currently represent over 500 hospitals in two different federal court cases where Hall Render filed the lead appeals on issues that significantly impact hospitals' DSH and Uncompensated Care reimbursement. We frequently work and collaborate with hospitals' consulting firms and other lead law firms who litigate in this space. Additionally, our team advises clients on all current issues such as wage index and any appeal matters that impact hospitals' PPS payments.

We provide a unique, affordable approach to billing Group Appeals involving hundreds of hospitals where fees are discounted and allocated pro-rata based on each hospitals' amount in controversy, and include a low success fee, as well as other alternative fee arrangements.

Representative Experience Example:

Our team represented more than 1,400 hospitals in appeals on an issue impacting the standardized amount component of their PPS payments, successfully negotiating what resulted *in the largest settlement in Medicare program history*. Hall Render's attorneys also assisted a struggling safety net hospital in obtaining a highly favorable settlement on a low volume appeal issue through combined appeal and federal advocacy efforts, which produced a necessary change in the relevant statute in order to accomplish the victory.
