

VIRTUAL CARE SERVICES

OUR APPROACH

Hall Render has developed over several years a team of attorneys who focus their practice in the area of telemedicine/telehealth (“Virtual Care”). These attorneys regularly work with health care entities and providers throughout the country to develop Virtual Care programs, perform multi-jurisdiction surveys, analyze reimbursement-related matters and provide counsel regarding the implementation and use of Virtual Care technology. In developing its Virtual Care Team, Hall Render has been uniquely able to leverage the participation of individual attorneys who have a particular subject matter experience.

There is wide variability among jurisdictions in their approach to telemedicine and telehealth, even more so with the rapid changes we have seen during the COVID-19 pandemic. Our attorneys are well versed in each of these jurisdictions and are well situated to address issues implicating numerous different subject matters. In addition to assisting clients in navigating the existing web of regulatory challenges in the provision of Virtual Care services, our attorneys work with members of Congress and congressional staff on legislative proposals that would encourage the adoption of Virtual Care delivery models for eligible services.

FOCUS AREAS

Hall Render regularly advises clients on the following aspects of Virtual Care:

- Professional Licensure
- Scope of Practice Considerations
- Delegated Credentialing
- Consent to Treatment
- Reimbursement
- Health Care Provider Alignment
- Telemedicine Procurement
- Data Privacy
- Medical Record Requirements
- Virtual Care Technology
- Risk Management
- Legal Compliance
- Business Formation and Registration
- Corporate Practice of Medicine.
